skandia investment management

Royal Skandia makes use of the skills of its sister company Skandia Investment Management Ltd (SIML) to select and monitor investment managers within the Skandia Investment Management funds. The funds are managed by Royal Skandia and are separate to the OEIC funds offered by SIML, although they may be invested wholly or partially through these funds.

## capital protected solutions

The assets listed below are not Royal Skandia funds but investments provided by Morgan Stanley & Co. International Limited which can be held within certain Royal Skandia products.

Morgan Stanley have provided the following data concerning the performance of the assets. It should be noted that Royal Skandia product charges apply in addition and so will reduce overall levels of capital protection and returns.

	Percentage Growth is measured on a bid value to bid value basis since launch to 31/03/2006				Rolling discrete performance % over one year to end March				Launched

Despite some of the funds/indices being denominated in US\$ or Euros, there is no currency exposure. Investments will NOT rise and fall purely as a result of exchange rate movements.

Capital Protected Solution assets are only available to investors who hold an Executive Redemption Bond or an Executive Investment Bond.

All three issues have a limited window of opportunity for investment and all three issues are now closed to new business.

These are not guaranteed investments. The capital protection applies on the maturity date only. Early encashment may result in some loss of capital or investment return.

The percentage growth figures are calculated using market valuation of the asset and not the value of the underlying funds/indices.

Source: Financial Express Limited, bid to bid with **gross** income reinvested back into the fund. Source for figures in **BOLD**: Royal Skandia.

† Crown Ratings unavailable as fund performance history is too short.

Note: Multi-priced funds do not have Crown Ratings.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or lower than the volatility of the sectors into which the funds are classified.

Sector classifications are proprietary to Financial Express Limited.

The performance figures shown are inclusive of all external fund management fees and Royal Skandia's Annual Management Charge, however, they exclude product charges.

The currency that features at the beginning of the Royal Skandia fund names indicates the currency that the funds are denominated in (the base currency). For example, the Royal Skandia **GBP** Balanced Portfolio is denominated in **Sterling**.

Royal Skandia's Multi-currency pricing system allows Royal Skandia to take the price of a fund and, by applying an exchange rate to it, produce equivalent prices in other currencies. For example, the Royal Skandia GBP UK Equity Blend has been repriced in Euro, USD and HKD and are listed with the relevant currency shown after the fund name in brackets.

**Royal Skandia Portfolio Bond products must invest directly into the base currency funds which for the purpose of clarity have been marked with a tick (✓).**

Funds marked with \* are not authorised by the Hong Kong Securities and Futures Commission (SFC), therefore these funds cannot be promoted to Hong Kong investors.

§ Royal Skandia funds closed to new Personal Portfolio Bond business.
