* RS GBP Fidelity Special Situations – fund split

Following recent shareholder approval, Fidelity is dividing the assets of the Fidelity Special Situations Fund into two separate funds on 18 September 2006.

In order to accommodate these changes, Skandia will be launching two new funds on the Royal Skandia fund range. As a result, it will not be possible to show past performance information for the original RS GBP Fidelity Special Situations Fund after 18 September.

For details of the fund split, including what this means to Skandia customers, new fund objectives and fund availability visit

www.skandia.co.uk/funds/fidelitiespecsits.asp

fund statistics in informer

Financial Express Crown Ratings

The Financial Express Crown Ratings are designed to highlight funds that have had superior consistent performance in relation to risk, relative to their peer groups. Peer groups are deemed to be the sectors as defined by the IMA and ABI.

- 3 🏆 Awarded to the top 20% of funds (in terms of overall score) within each sector.
- 2 🏆 Awarded to the next 30%.
- 1 🏆 Awarded to the bottom 50%, all rated funds get a crown rating.

Forsyth-OBSR Ratings

Ratings awarded are AAA, AA or A.

There are several key factors which lead to the final Forsyth-OBSR Rating determination. These are:

- Strength of investment process and length of time it has been in place.
- Continuity of investment personnel.
- Investment style that has proven durable over time.
- Clearly defined investment objectives.
- Strong and consistent past performance record.
- Favourable risk adjusted returns.

The Forsyth-OBSR Ratings are more focused towards qualitative appraisals.

Citywire Ratings

Citywire considers all managers who run actively managed retail funds, assigning ratings to managers who achieve or exceed demanding performance thresholds based on their 36 month risk records. Of the hundreds of active fund managers only 20% receive a rating.

- AAA fund managers in the top 5%
- AA fund managers in the top 6%-13%
- A fund managers in the top 14%-20%

Sector averages

Sector averages denote the median performance of all funds within that particular sector. Sector classifications are defined by Financial Express.

A new sector will only display sector averages after three months of performance data has been collated.

Risk Evaluator

The Risk Evaluator is a tool provided by Skandia which compares the volatility of fund sectors. The sectors have been arranged in ascending order according to their volatility numbers, which have been calculated over five years, and the entire range has been divided into ten segments, each representing 10% of the range. The sectors have been placed into the relevant segment, depending on where their volatility numbers fall. Each segment has been colour-coded to represent the risk associated with each sector.

Sectors will only have a risk evaluator rating after 60 months of performance data has been collated. Sectors that do not have performance data to this length will not display a risk evaluator rating.

Fund Risk Number

You are familiar with the Risk Evaluator - telling you the volatility of sectors. The Fund Risk Number takes this idea and applies it to individual funds.

As the universe for each is so different you should not seek to compare one to the other. By virtue of being grouped averages, the spread of sector volatilities will be compacted, whereas an individual fund may be some way from the average, as highlighted on the scale below.

The Skandia Fund Risk Number has been calculated by taking the volatility values of an entire fund universe and arranging them in ascending order.

The ordered volatility range has subsequently been divided into ten segments, each representing 10% of the range. The funds have been placed into the relevant segment, depending on where their volatility numbers fall.

The fund risk number will not be shown for funds with less than five years of performance history.

how to use indicator

The Indicator provides investors with a 12-month stock market outlook from a selection of fund groups linked to Skandia. We provided the fund groups with an index as a benchmark for each sector and asked them how they think the index will perform over the next 12 months.

These views are not fund specific. We have asked the fund groups to provide an outlook for each sector as a whole.

positive currency outlook

If the Indicator shows a positive view for the US\$, Euro or Yen, this represents a view of Sterling depreciating against that currency, which will have a positive impact on the returns from overseas investment.

Example: £1 = YEN 100

You, as an investor, buy Japanese shares costing YEN 100. After buying your shares, Sterling depreciates to £1 = YEN 90, this means you only need YEN 90 to buy back your original £1. You have YEN 100 which divided by the exchange rate of £1/YEN 90 actually gives you £1.11.

If the fund group view for Japanese equities is positive and their outlook for the £/YEN is positive, then the overall outlook for the UK investor into Japan is positive. This is because the positive currency outlook increases the returns to the investor from the equity investment.

negative currency outlook

If the Indicator shows a negative view for the US\$, Euro or Yen, this represents a view of Sterling appreciating against that currency, which will have a negative impact on the returns from overseas investment.

Example: £1 = YEN 100

You, as an investor, buy Japanese shares costing YEN 100. After buying your shares, Sterling appreciates to £1 = YEN 110, this means you will need YEN 110 to buy back your original £1. You have YEN 100 which divided by the exchange rate of £1/YEN 110 actually gives you £0.91.

If the fund group view for Japanese equities is positive but their outlook for the £/YEN is negative, then the UK investor would need to exercise a degree of caution when considering the Japanese market. This is because currency movements could adversely affect the positive equity returns.

indicator categories

Equities - The outlook provided by the fund group for equities ignores the effect that currency movements can have on the market. For example, if the fund group believes the US outlook is positive, but believes the strength of Sterling will be a deterrent for UK investors, they will still show a positive outlook for the US market.

Equities - The outlook for each equity market relates to a specific index in Sterling terms.

Bonds - The outlook for each bond market relates to a specific index in Sterling terms.

Currencies - The currency outlook provides an outlook for Sterling-based investors.

outlook guidelines

▲ a positive outlook

the fund group believes the index they are using as a benchmark will rise in excess of 5% over the next 12 months.

□ a neutral outlook

the fund group believes the index they are using as a benchmark will have either a positive or negative movement of between 0% and 5%.

● a negative outlook

the fund group believes the index they are using as a benchmark will fall in excess of 5% over the next 12 months.

which route to choose?

Making the right choice for your portfolio and then refining it and reshaping it over the years takes time, information and skill. Fund managers need to be selected and monitored to ensure they remain at the top of their game - and replaced when they do not.

Skandia Investment Management offer the specialist services of 'managing the managers' and provide the flexibility for you to retain asset allocation decisions or delegate them to our specialist team.

Self Select offers a choice of a wide range of fund managers and their funds.

MultiManager

'the use of external fund managers'

Skandia Investment Management

- Manage the managers
- Select, monitor and de-select managers
- Blend skills within sectors

Managed Investment Solutions

Adviser delegates asset allocation to Skandia

Asset Allocator Funds

Adviser selects asset allocation from a range of sector solutions

Self Select

- Skandia provides access to a wide range of fund managers and their funds
- You and your client are responsible for choice
- Comprehensive choice across asset types, geographic sectors, and leading fund managers

whatever your need, our range of funds is structured to offer you the right solution

skandia investment management

An increasing number of investors are looking for managed solutions with decisions outsourced to investment experts with the skills, resource and process to 'manage the managers'.

For them we offer the dedicated expertise of our sister company **Skandia Investment Management**. Through its skills we create managed portfolios of world class fund managers,

carefully constructed to maximise returns and minimise risk.

Our research team monitors fund managers and applies exacting search criteria to identify the best managers in different sectors and with different styles.

They use a disciplined process using the resources and years of expertise of one of the largest investment research teams in the UK.

Having identified the best managers they blend their skills to create the best mix of investment style and process in each sector.

And they monitor daily to make sure the selected managers remain the best. If their performance falls off, or their discipline wanes, then they are replaced. Investors know that their portfolios remain in the hands of today's stars - not yesterday's.

The skandia investment management process

Skandia builds portfolios to suit the most common investor objectives, and these are presented in three categories:

- **Managed Growth Solutions**
Growth funds suited to a range of investor risk profiles - Cautious, Balanced and Aggressive.
- **Managed Income Solutions***
Funds constructed to produce an income. The income returns can be reinvested or taken as income if the product type allows.
- **Asset Allocator Funds**
Funds covering specific investment sectors - among them are UK, Europe, US, and Far East.

Source for all performance information and Crown Ratings: Financial Express Limited, bid to bid with gross income reinvested back into the fund.

Source for performance for funds in **BOLD**: Skandia, bid to bid, in sterling, with gross income reinvested back into the fund.

† Crown Ratings unavailable as fund performance history is too short.

Note: Multi-priced funds do not have Crown Ratings.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or lower than the volatility of the sectors into which the funds are classified.

Sector classifications are proprietary to Financial Express Limited.

The performance figures shown are inclusive of all external fund management fees and Royal Skandia's Annual Management Charge, however, they exclude product charges.

The currency that features at the beginning of the Royal Skandia fund names indicates the currency that the funds are denominated in (the base currency). For example, the Royal Skandia **GBP** Balanced Portfolio is denominated in **Sterling**.

Royal Skandia's Multi-currency pricing system allows Royal Skandia to take the price of a fund and, by applying an exchange rate to it, produce equivalent prices in other currencies. For example, the Royal Skandia GBP UK Equity Blend has been repriced in Euro, USD and HKD and are listed with the relevant currency shown after the fund name in brackets.

Royal Skandia Portfolio Bond products must invest directly into the base currency funds which for the purpose of clarity have been marked with a tick (✓).

Funds marked with * are not authorised by the Hong Kong Securities and Futures Commission (SFC), therefore these funds cannot be promoted to Hong Kong investors.

§ Royal Skandia funds closed to new Personal Portfolio Bond business.

The Forsyth-OBSR ratings relate to the underlying Unit Trust/OEIC; the Citywire ratings relate to the fund manager individual managing the underlying Unit Trust/OEIC.

For more information regarding the statistics shown in Informer please see the fund news page.

skandia investment management

Royal Skandia makes use of the skills of its sister company Skandia Investment Management Ltd (SIML) to select and monitor investment managers within the Skandia Investment Management funds. The funds are managed by Royal Skandia and are separate to the OEIC funds offered by SIML, although they may be invested wholly or partially through these funds.

Source for all performance information and Crown Ratings: Financial Express Limited, bid to bid with gross income reinvested back into the fund.

Source for performance for funds in **BOLD**: Skandia, bid to bid, in Sterling, with gross income reinvested back into the fund.

† Crown Ratings unavailable as fund performance history is too short.

Note: Multi-priced funds do not have Crown Ratings.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or lower than the volatility of the sectors into which the funds are classified.

Sector classifications are proprietary to Financial Express Limited.

The performance figures shown are inclusive of all external fund management fees and Royal Skandia's Annual Management Charge, however, they exclude product charges.

The currency that features at the beginning of the Royal Skandia fund names indicates the currency that the funds are denominated in (the base currency). For example, the Royal Skandia **GBP**

Balanced Portfolio is denominated in **Sterling**.

Royal Skandia's Multi-currency pricing system allows Royal Skandia to take the price of a fund and, by applying an exchange rate to it, produce equivalent prices in other currencies. For example, the Royal Skandia **GBP** UK Equity Blend has been repriced in Euro, USD and HKD and are listed with the relevant currency shown after the fund name in brackets.

Royal Skandia Portfolio Bond products must invest directly into the base currency funds which for the purpose of clarity have been marked with a tick (✓).

Funds marked with * are not authorised by the Hong Kong Securities and Futures Commission (SFC), therefore these funds cannot be promoted to Hong Kong investors.

§ Royal Skandia funds closed to new Personal Portfolio Bond business.

The Forsyth-OBSR ratings relate to the underlying Unit Trust/OEIC; the Citywire ratings relate to the fund manager individual managing the underlying Unit Trust/OEIC.

For more information regarding the statistics shown in *informer* please see the fund news page.

skandia investment management

Royal Skandia makes use of the skills of its sister company Skandia Investment Management Ltd (SIML) to select and monitor investment managers within the Skandia Investment Management funds. The funds are managed by Royal Skandia and are separate to the OEIC funds offered by SIML, although they may be invested wholly or partially through these funds.

self select

All the funds in the self select section are only available as unit linked life assurance funds via Royal Skandia Life Assurance Limited products. The performance of the Skandia fund will not mirror the performance of the underlying fund because of the Skandia Life fund charges, taxation adjustments (if appropriate) and the Royal Skandia investment process.

Source for all performance information and Crown Ratings: Financial Express Limited, bid to bid with gross income reinvested back into the fund.

Source for performance for funds in **BOLD**: Skandia, bid to bid, in Sterling, with gross income reinvested back into the fund.

Note: Multi-priced funds do not have Crown Ratings.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or lower than the volatility of the sectors into which the funds are classified.

Sector classifications are proprietary to Financial Express Limited.

The performance figures shown are inclusive of all external fund management fees and Royal Skandia's Annual Management Charge, however, they exclude product charges.

The currency that features at the beginning of the Royal Skandia fund names indicates the currency that the funds are denominated in (the base currency). For example, the Royal Skandia **GBP** Balanced Portfolio is denominated in **Sterling**.

Royal Skandia's Multi-currency pricing system allows Royal Skandia to take the price of a fund and, by applying an exchange rate to it, produce equivalent prices in other currencies. For example, the Royal Skandia GBP UK Equity Blend has been repriced in Euro, USD and HKD and are listed with the relevant currency shown after the fund name in brackets.

Royal Skandia Portfolio Bond products must invest directly into the base currency funds which for the purpose of clarity have been marked with a tick (✓).

Funds marked with * are not authorised by the Hong Kong Securities and Futures Commission (SFC), therefore these funds cannot be promoted to Hong Kong investors.

§ Royal Skandia funds closed to new Personal Portfolio Bond business.

The Forsyth-OBSR ratings relate to the underlying Unit Trust/OEIC; the Citywire ratings relate to the fund manager individual managing the underlying Unit Trust/OEIC.

For more information regarding the statistics shown in *informer* please see the fund news page.

skandia investment management

Royal Skandia makes use of the skills of its sister company Skandia Investment Management Ltd (SIML) to select and monitor investment managers within the Skandia Investment Management funds. The funds are managed by Royal Skandia and are separate to the OEIC funds offered by SIML, although they may be invested wholly or partially through these funds.

Source for all performance information and Crown Ratings: Financial Express Limited, bid to bid with gross income reinvested back into the fund.
Source for performance for funds in **BOLD**: Royal Skandia, bid to bid in Sterling, with gross income reinvested back into the fund.

Note: Multi-priced funds do not have Crown Ratings.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or lower than the volatility of the sectors into which the funds are classified.

Sector classifications are proprietary to Financial Express Limited.

The performance figures shown are inclusive of all external fund management fees and Royal Skandia's Annual Management Charge, however, they exclude product charges.

The currency that features at the beginning of the Royal Skandia fund names indicates the currency that the funds are denominated in (the base currency). For example, the Royal Skandia **GBP** Balanced Portfolio is denominated in **Sterling**.

Royal Skandia's Multi-currency pricing system allows Royal Skandia to take the price of a fund and, by applying an exchange rate to it, produce equivalent prices in other currencies. For example, the Royal Skandia GBP UK Equity Blend has been repriced in Euro, USD and HKD and are listed with the relevant currency shown after the fund name in brackets.

Royal Skandia Portfolio Bond products must invest directly into the base currency funds which for the purpose of clarity have been marked with a tick (✓).

Funds marked with * are not authorised by the Hong Kong Securities and Futures Commission (SFC), therefore these funds cannot be promoted to Hong Kong investors.

§ Royal Skandia funds closed to new Personal Portfolio Bond business.

The Forsyth-OBSR ratings relate to the underlying Unit Trust/OEIC; the Citywire ratings relate to the fund manager individual managing the underlying Unit Trust/OEIC.

For more information regarding the statistics shown in *informer* please see the fund news page.

Source: Financial Express Limited, bid to bid with **gross** income reinvested back into the fund. Source for figures in **BOLD**: Skandia Ireland.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or lower than the volatility of the sectors into which the funds are classified.

Sector classifications are proprietary to Financial Express Limited.

The performance figures shown are inclusive of all external fund management fees and Skandia Ireland's Annual Management Charge, however, they exclude product charges.

The currency that features at the beginning of the Skandia Ireland fund names indicates the currency that the funds are denominated in (the base currency). For example, the Skandia **GBP**

Balanced Portfolio is denominated in **Sterling**.

Skandia Ireland's Multi-currency pricing system allows Skandia Ireland to take the price of a fund and, by applying an exchange rate to it, produce equivalent prices in other currencies.

For example, the Skandia GBP UK Equity Blend IRK fund has been repriced in Euro and USD and are listed with the relevant currency shown after the fund name in brackets.

Skandia Ireland Portfolio Bond products must invest directly into the base currency funds, which for the purpose of clarity have been marked with a tick (✓).

Funds marked with * are not available to residents of Spain.

Skandia Ireland products are only available in certain countries within the European Economic Area.

For more information regarding the statistics shown in informer please see the fund news page.

This Financial Express sourced information is provided to you by Skandia UK Group and is used at your own risk. Financial Express take care to ensure that the information provided is correct.

Neither Financial Express or Skandia UK Group warrants, represents nor guarantees the contents of the information, nor do they accept any responsibility for error, inaccuracies, omissions or any inconsistencies herein.

■ skandia investment management

Skandia Ireland makes use of the skills of its sister company Skandia Investment Management Ltd (SIML) to select managers within the Skandia Investment Management funds. The funds are managed by Skandia Ireland and are separate to the OEIC funds offered by SIML, although they may be invested wholly or partially through these funds.

Source: Financial Express Limited, bid to bid with **gross** income reinvested back into the fund. Source for figures in **BOLD**: Skandia Ireland.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or lower than the volatility of the sectors into which the funds are classified.

Sector classifications are proprietary to Financial Express Limited.

The performance figures shown are inclusive of all external fund management fees and Skandia Ireland's Annual Management Charge, however, they exclude product charges.

The currency that features at the beginning of the Skandia Ireland fund names indicates the currency that the funds are denominated in (the base currency). For example, the Skandia **GBP** Balanced Portfolio is denominated in **Sterling**.

Skandia Ireland's Multi-currency pricing system allows Skandia Ireland to take the price of a fund and, by applying an exchange rate to it, produce equivalent prices in other currencies.

For example, the Skandia GBP UK Equity Blend IRL fund has been repriced in Euro and USD and are listed with the relevant currency shown after the fund name in brackets.

Skandia Ireland Portfolio Bond products must invest directly into the base currency funds, which for the purpose of clarity have been marked with a tick (✓).

Funds marked with * are not available to residents of Spain.

Skandia Ireland products are only available in certain countries within the European Economic Area.

For more information regarding the statistics shown in informer please see the fund news page.
